

ENVIRONMENTAL COMMITMENT

Dear supplier, in **WHITEWALL SOLUTIONS, SL.** we are committed to the environment and our environmental management system affects not only our activity, but also those who collaborate at some point in our work, whether they are contracted services or purchased material that affects the life cycle.

Thus, we must count on you and your commitment to compliance applicable environmental legislation in relation to the work performed.

Environmental commitments:

- Develop your activity with a responsible attitude towards the environment.
- Report all incidents with environmental repercussions that take place in the development of the activity at the facilities of **WHITEWALL SOLUTIONS, SL.**
- Separate waste (Hazardous and Non-Hazardous) at source and manage it in accordance with current regulations, prioritizing recycling over disposal.
- Remove the waste generated in compliance with current environmental legislation.
- Do not pour chemical products into the sanitation network.
- Consume water, energy and other resources needed to carry out the work in a responsible manner.
- Reuse as many materials as possible.
- Turn off the equipment whenever its operation is not necessary.
- Manage the work and services provided, minimizing the environmental impact as far as possible, especially in the following areas:

Raw material extraction	Depletion of natural resources / Global warming / Greenhouse effect
transport or delivery	CO2 emissions / Global warming / Greenhouse effect / Generation of Hazardous Waste / Consumption of fossil fuels
Use	Land occupation / CO2 emissions / Global warming / Greenhouse effect
End-of-life treatment	Land occupation / CO2 emissions / Global warming / Greenhouse effect / Recycling / Acidification of the environment
Final disposition	Land occupation / CO2 emissions / Global warming / Greenhouse effect / Recycling / Acidification of water and soil, minimization of confinement

On our website you will find our Quality and Environment Policy
